0

A long time ago there lived a man

called Noah.

Noah was a good man who had

a wife and three sons.

One day God told Noah the

people were wicked.
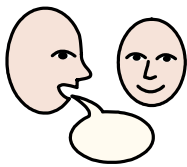

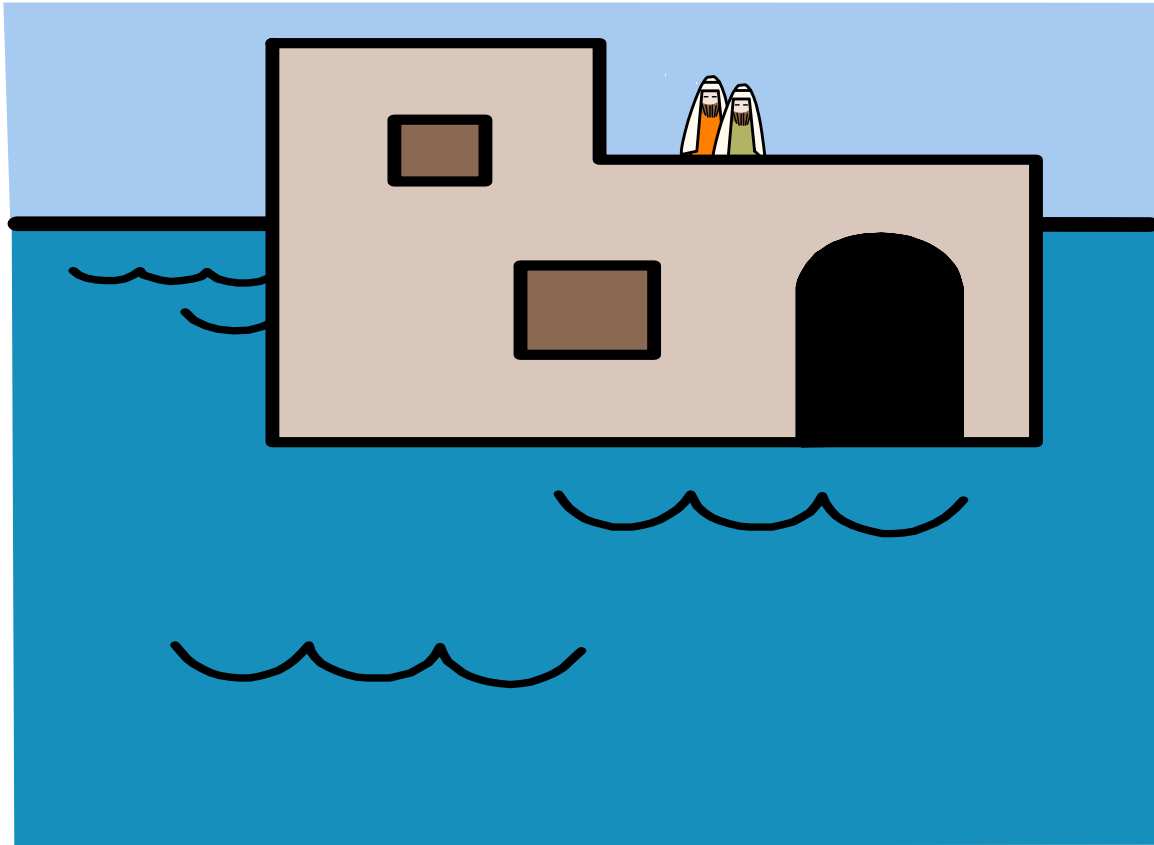

He   said

"I'm   going to   flood   the   earth   and
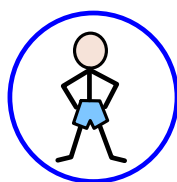

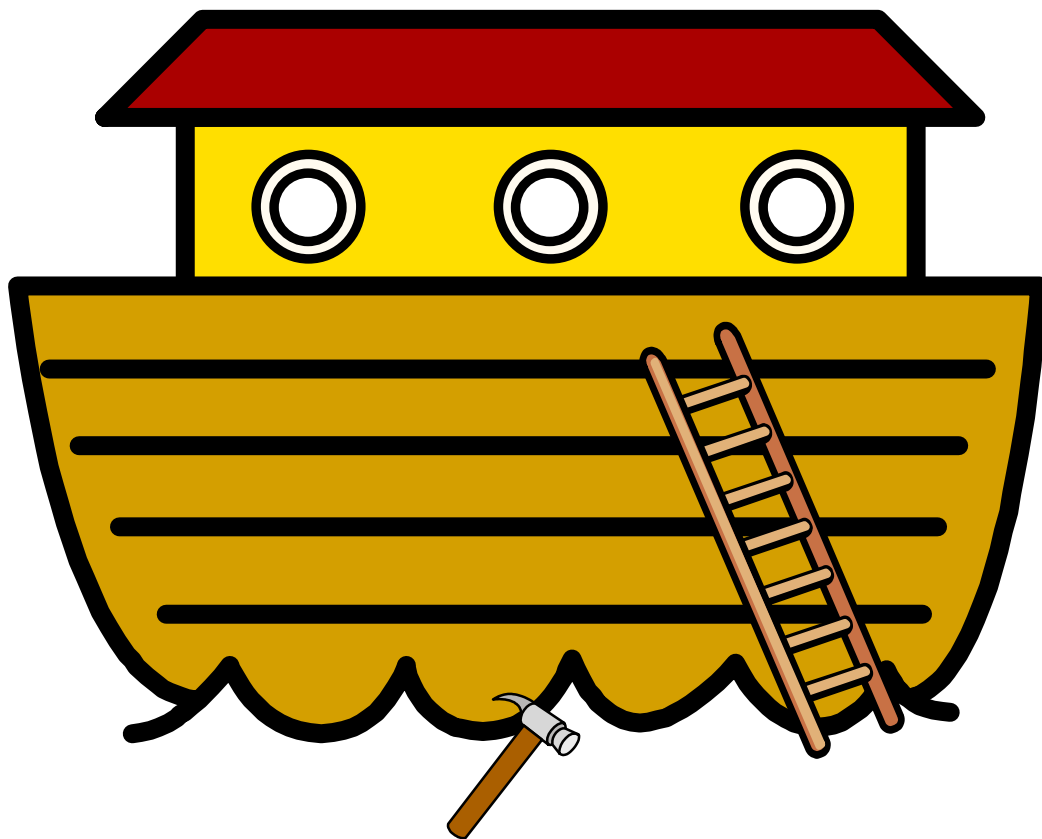

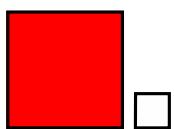

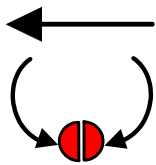

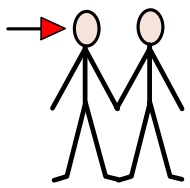

only   you   will   ₄be   safe."
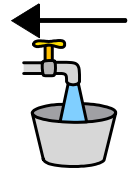

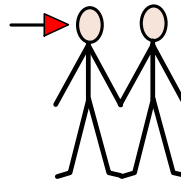

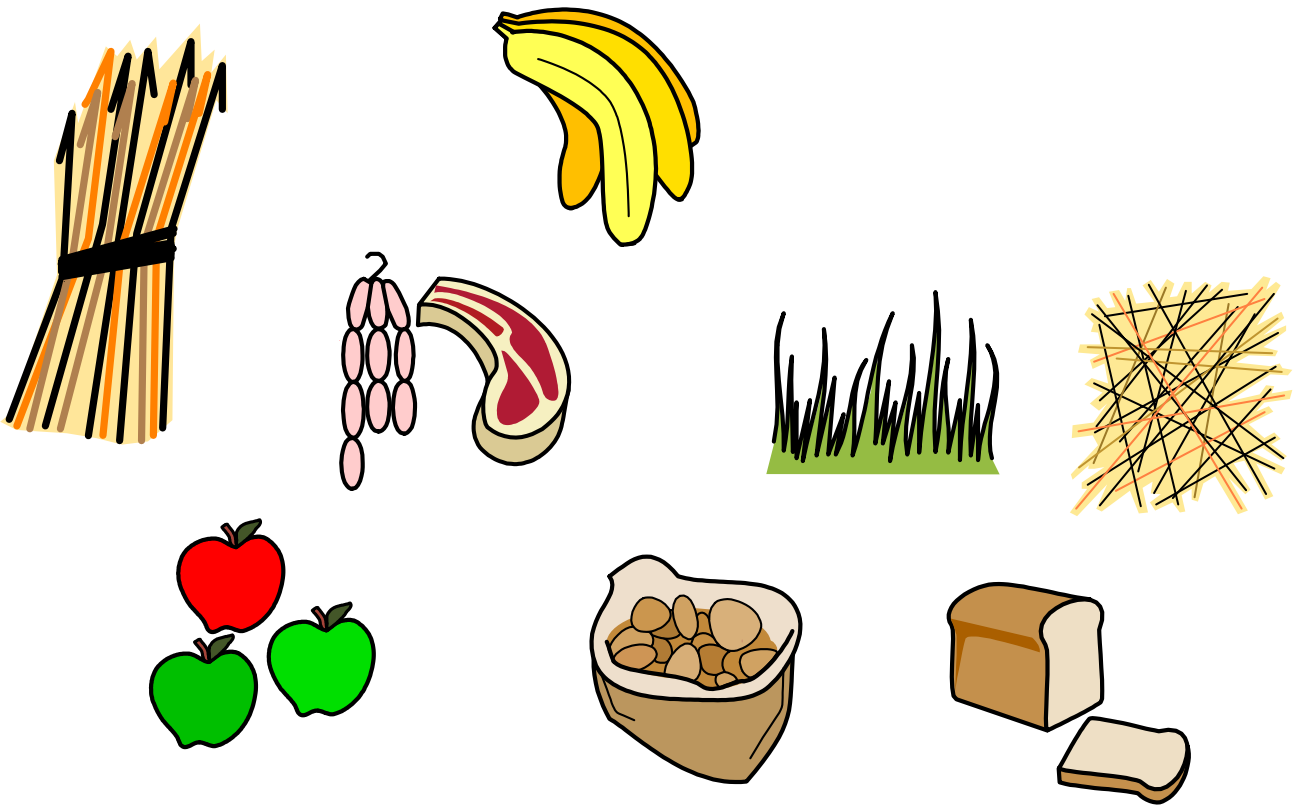

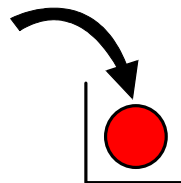

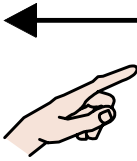

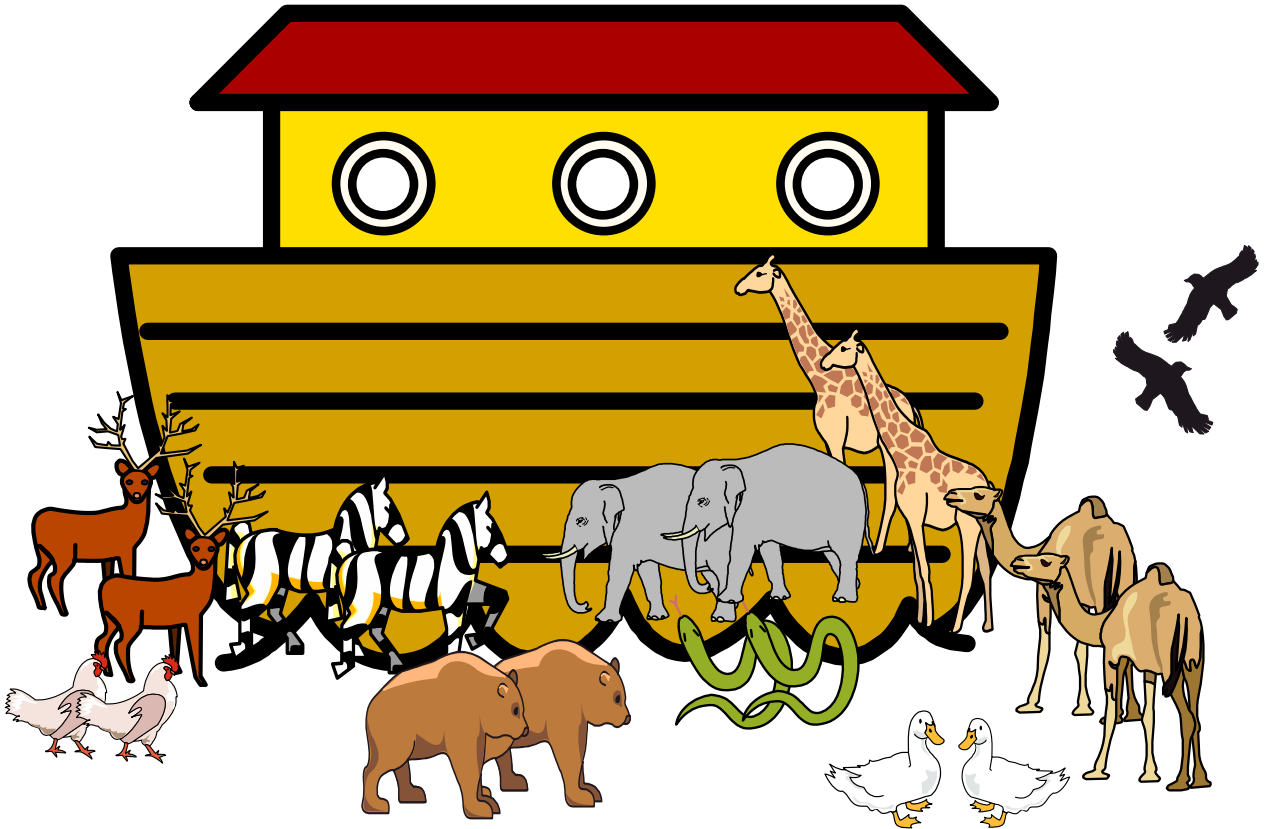

God told Noah

to build an ark.
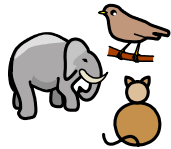

Noah and his sons built a

big ark.

They made the ark waterproof.
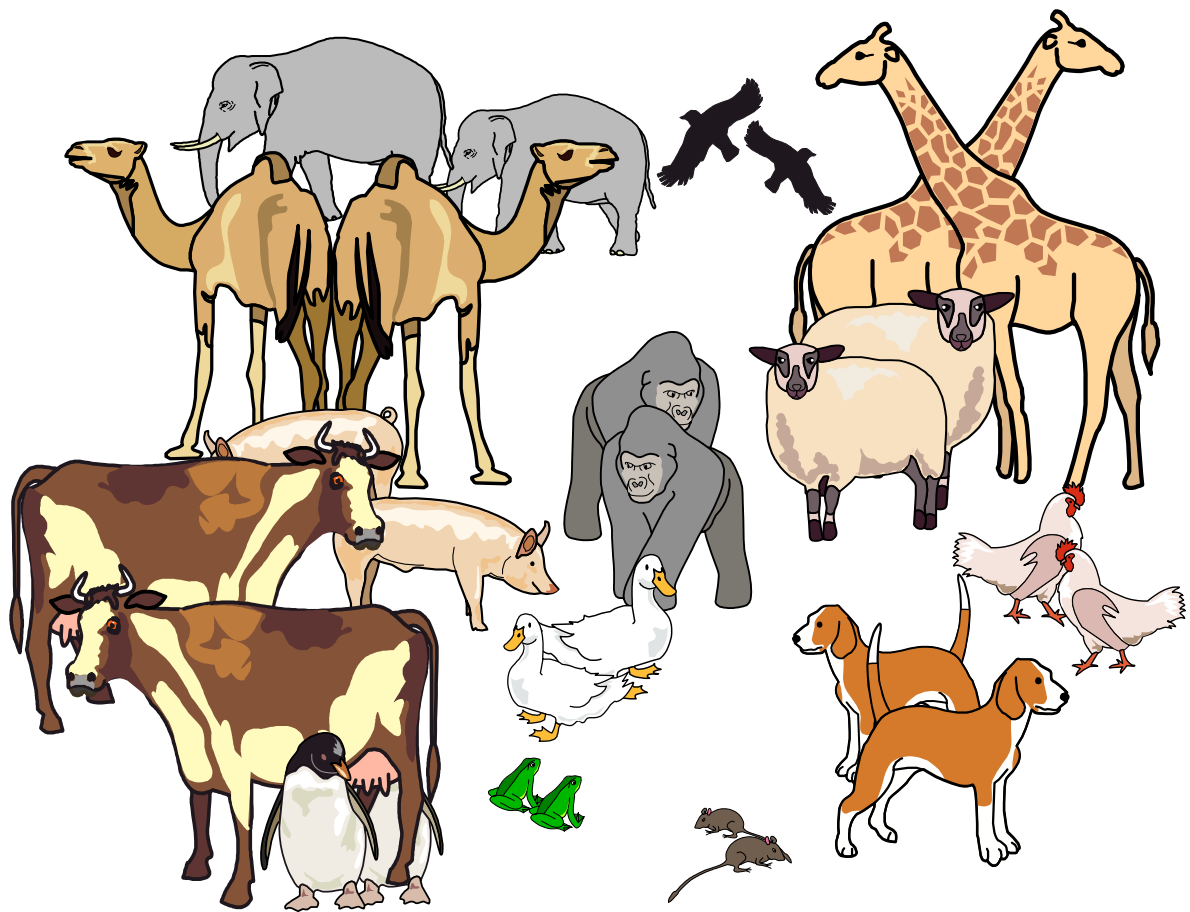

When it was ready they filled

it with food.

Noah's family went into the ark.

Then the animals went in too.

There were lots of animals,

2 two of every kind.
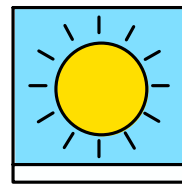

It rained for 40 forty days and 40 forty nights.

Everyone in the ark was safe.

Noah   sent   a   raven   to   find

some   dry   land.

The raven soon came back.

Later Noah sent a dove.

The dove came back with a twig.
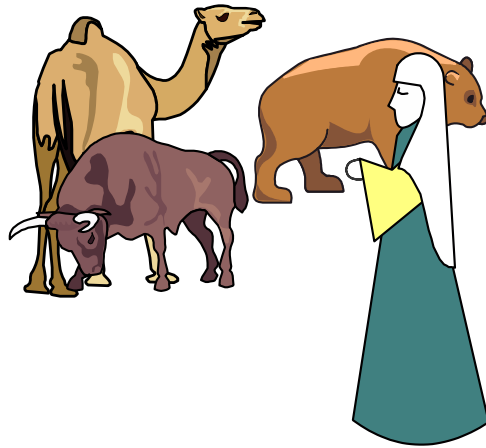

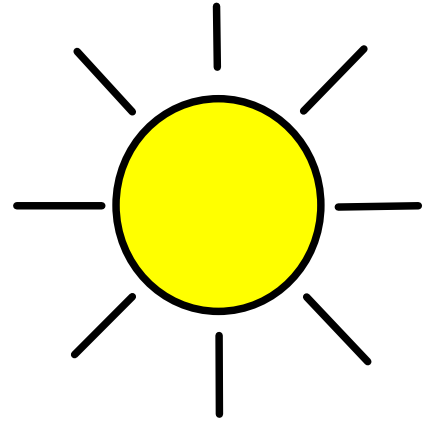

When Noah opened the door of
the ark he saw that the sun
was shining.
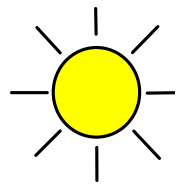

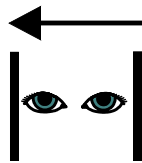

16

His family and all the animals
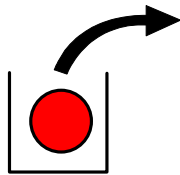

walked out of the ark.

!! ☀️
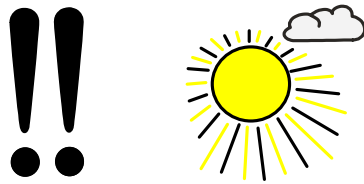

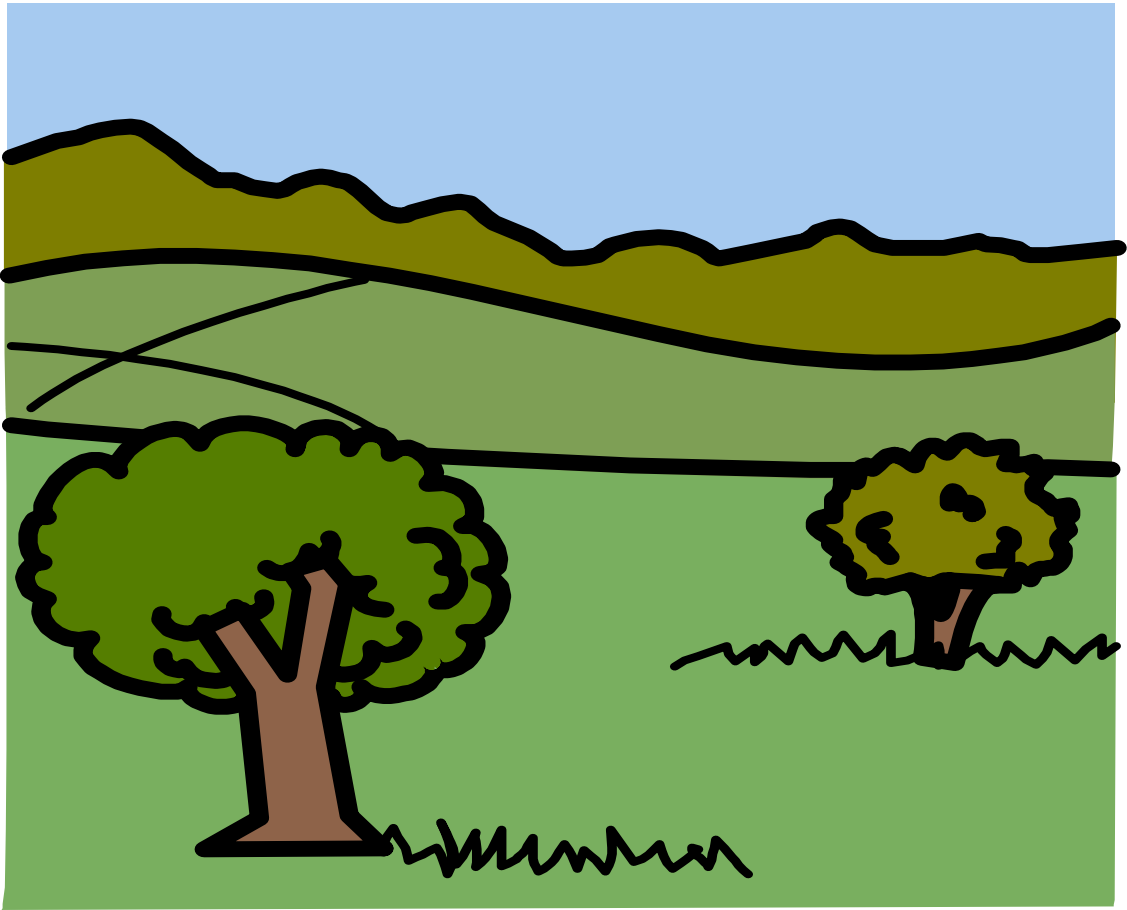

It   was   very   sunny   and   the
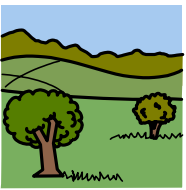

land   was   dry.
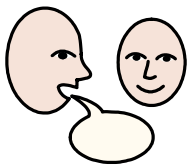

Noah said "The flood is over and everything is growing again."

God said to everyone "I want

you to live all over the earth

+ and have families."

God put a rainbow in the

sky and told everyone that was

his sign.
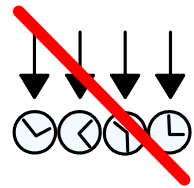

God said "I promise I'll never

flood the whole earth again".

InPrint ③

Design personalised symbol materials to print

This resource pack was created using InPrint 3.

With access to over 20,000 Widgit Symbols, 100s of editable templates and a range of powerful design features, InPrint 3 customers can edit and amend all ready made resources, customise symbols and content, as well as create their own visual supports.
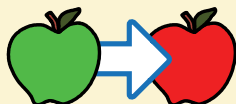

Change Skin Tone
Change the skin tones of any symbol to make your materials more personal.

Add Yor Own Pictures
Personalise your materials by adding images from your computer or the web.
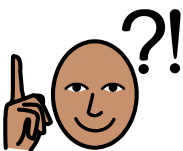

Change Symbol Colour
Tweak the colour of any Widgit Symbol to make your content more relevant.

Change Symbol Text
Edit the text beneath a symbol to make your content more specific or personal.

You have downloaded a PDF of the resources.

Would you like to edit these PDF Resources?
If you subscribe to InPrint 3 (IP3), and download the IP3 version of the resources, you can edit or tailor the content to meet your needs.
