

A PACK OF RESOURCES BY

SPEECH & LANGUAGE THERAPIST

AN EARLY LOOK & SAY READING SCHEME (PACK 1/2)

An alternative early reading scheme designed for use with:

- very young entrants to Reception who are not ready for phonics or the school's main reading scheme
- young children with language delay or disorder who use short, simple sentences
- older children with learning difficulties who are 'stuck' at a level of the main reading scheme and need extra work at a simple level with a good chance of success.

This is Pack 1 of a two-pack set. Pack 1 contains:

- the word and symbol cards which are the basis of the learning game for new vocabulary (29 words in this Pack)
- eight 8-page books with very simple sentences children might say - only the first book has symbol-support for the text as the accompanying word and symbol cards are to be used as reminders if necessary
- an associated back-up set of smaller cards and a set of sentences for a read-remember-find-&-copy task (which can be simplified to matching cards to writing if necessary) - these worksheets are arranged in three sets of cards covering three books in each set and overlap into Pack 2 of the reading scheme to simplify the layout and division of materials into the packs.

Filenames and descriptions are listed on page 2.

(Please note that filenames have all lower case letters)

Notes are included to indicate how each part of the Pack is designed to be used.

AN EARLY LOOK & SAY READING SCHEME (PACK 1/2)

The file with the teaching cards shows the vocabulary for each book. It is recommended that the worksheet back-up tasks are started as soon as the relevant vocabulary has been covered. So, when the first three books have been done, integrate work on the worksheet tasks.

Part 1 will probably take a term or more for a child who is not able to tackle the main reading scheme for whatever reason.

The headings are filenames and are therefore in lower-case throughout
