Repurposing

is

a creative way

of

reusing

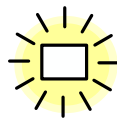

items.

We can create

something

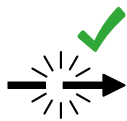

new

and

useful.

Repurposing

can be

fun.

Repurposing

is

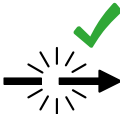

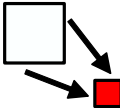

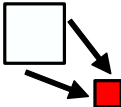

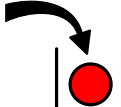

helpful

for the planet.

 means we create
 
 less
 
 waste.

 means
 
 less
 
 waste
 
 goes into
 
 landfill.

 This is better for the environment.

 saves energy
 and
 
 materials.

 Making fewer new things is better for the environment.

 Using too many materials creates waste.

 Using too much energy creates pollution.

 Pollution is bad for the environment.

Try not to

throw away

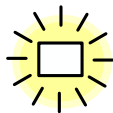

old

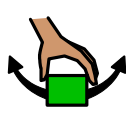

items.

Think of

new

uses

for

them.

You could

turn

old

jars

into

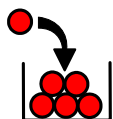

vases.

You could

use them

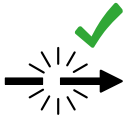

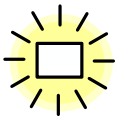

to store

stationery.

 Old clothes can be repurposed into new fashion.

 Old clothes can be turned into a bag or a quilt.

 T-shirts can be cut up and turned into headbands.

 Recycling old clothing can be fun.

We can

repurpose

old

newspapers

and

magazines.

They

could be

used for

art projects

or

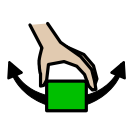

wrapping paper.

Cardboard boxes

could be

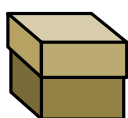

used for

a mini city

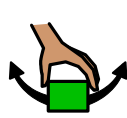

for toy cars.

They

could be

used for

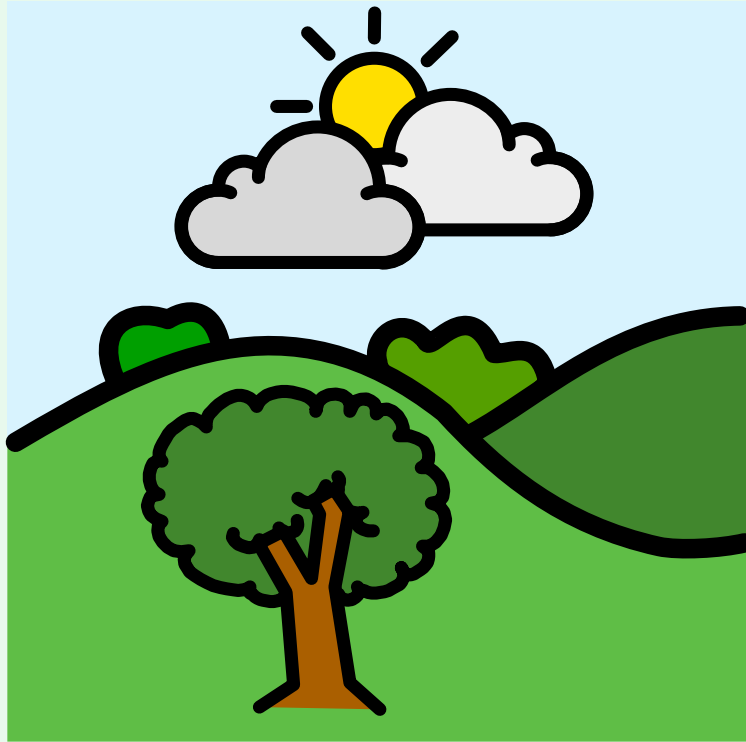

a doll's house

or

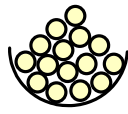

a puppet theatre.

We can

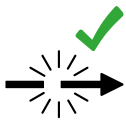

repurpose

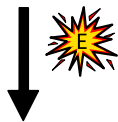

many

items.

Repurposing

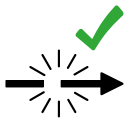

saves energy

and

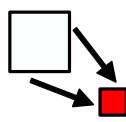

materials.

Repurposing

creates

less

waste.

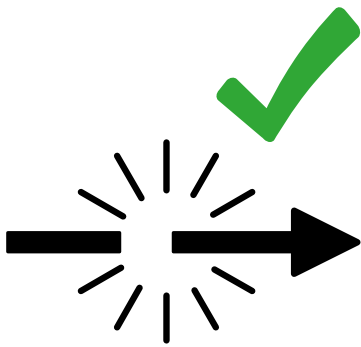

Repurposing

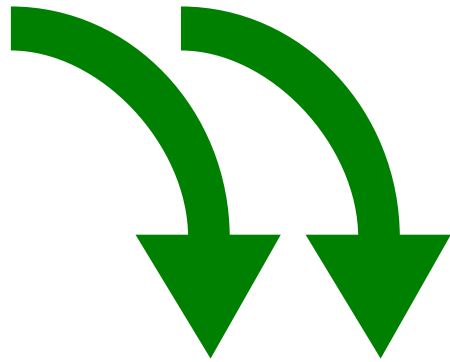

is helpful

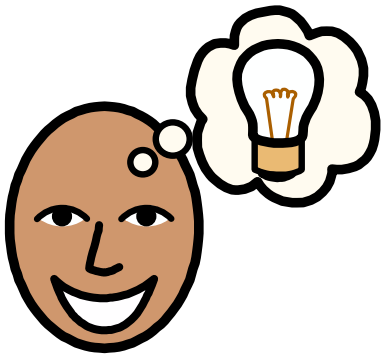

for the environment.
